

IAMFE/Egypt'2026

Announcement of The 17th International Conference and Exhibition on Mechanization of Field Experiments (Second Round)

September 20-23, 2026 Cairo, Egypt

I Sponsor

International Association on Mechanization of Field Experiments (IAMFE)

II Organizer

Egypt National Research Centre (NRC)

III Co-organizers

Chinese Society of Agricultural Engineering

Qingdao Agricultural University

Yellow River Delta Intelligent Agriculture Machinery Equipment Industry Academy

Qingdao Agricultural Machinery Production and Distribution Association

Qingdao Plantech Mechanical Technology Co., Ltd.

IV Conference Format and Language

The conference format is onsite, and the language of conference is English.

V Exhibition

The equipment exhibition of this conference will be held together with The 38th Edition of the International Agricultural Exhibition for Africa and the Middle East (SAHARA Expo 2026). Instruments and equipment covering the entire seed industry chain will be featured, mainly including: field experimental machinery for seed breeding, and production; intelligent and information-based technology products (e.g.,

digital twins, remote operation, Internet of Things); instruments and equipment in the field of biological breeding; seed processing and comprehensive treatment equipment; testing and measurement equipment for field experiments and laboratory analysis; soil and environmental detection equipment; and poster displays of relevant research achievements in the seed industry.

VI Call for Papers and Topics

- Methods for Field Experiment Management in Seed Breeding and Propagation
- Agricultural Machinery-Agronomy Integration Technology for Crop Breeding
- Mechanization Technology and Equipment for Seed Breeding, Propagation and Production
- Seed Digitalization and Informatization Technology
- Seed Processing, Testing Technology and Equipment
- Smart Agriculture-Related Technology and Equipment
- Technology and Equipment for Seed Breeding, Propagation and Production in Protected Environments
- New Technologies for irrigation and farm machinery
- Other related topics

Oral presentations and poster will be held. Abstracts and full papers are accepted in English and shall be published in Conference Proceedings (free in charge) or International Academic Journals. For the format of the paper writing, please refer to the template. Authors willing to publish their papers in international academic journals need to pay an additional fee.
